

## What is the National Health Service Corps?

The National Health Service Corps (NHSC) is a federal program that helps bring medical, dental, and mental and behavioral health professionals to communities with limited access to health care, including rural areas. Its members are dedicated to ensuring health care for everyone, preventing disease and illness, and caring for those who might otherwise go without care.

## Do I Qualify for NHSC Discount/Sliding Fee Scale Program?

Eligibility is based on a patient's annual income and family size under the U.S. Department of Health and Human Services' annual Federal Poverty Guidelines.

Patients must receive services at one of the NHSC approved locations and qualify as low-income (can be uninsured or underinsured patients). A list of CentraCare's NHSC approved locations is on page 2.

### ***Eligibility information:***

For CentraCare, discounted/sliding fee schedule is based on family size and income.
